Applications

- ROV
- Tooling
- General use

SeaLED 135 (110V AC)

Technical Specifications

Electrical	
Total Luminous Output	8000 Lumens (typical)
Beam Angle	95 Deg
Colour Temperature	4,000K
Power Input	110 V AC (160W)
Dimming	RS232 /RS485, Triac or 0-10V DC
Mechanical	
Dimensions	Diameter:74mm (main body) 79mm at the front end. Length 180mm
Weight	In air: 0.4kg In water: 0.2kg
Housing Material	Titanium
Connector	MCBH3M (other connector options are available)
Port	Acrylic Dome
Environmental	
Operating Depth	6000 msw (8500msw Option)
Temperature	Operating: 0°C to 40°C (In Water) Storage: -20°C to 60°C

SeaLED 135 110VAC Rev 2.1
