Workshop Hydraulic Power Unit

Specification				
Model	Weight (kg)	L (mm)	W (mm)	H (mm)
132483	291	1200	800m	1308

Features

- Outlet pressure 20 000 PSI
- Flushing 30L/min @ 100 Bar (Can be adjusted to customer need)
- Tank 100L (Can be adjusted to customer need)
- Stainless steel frame, tank and panels
- Each line has connection for Pressure Transmitter
- Can be expanded with multiple HP/LP lines
- 400VAC 32A Power supply
- Built in offline filter unit for filling/emptying and constant tank circulation trough filter to meet cleanliness spec.
- Easy to handle workshop unit on wheels
